ABOUT ME

Computer science student with hands-on experience building productivity apps, Unity games, and small software projects. Developing skills in Python, HTML, CSS, and Git, with a strong interest in interactive digital experiences. I also explore animation, drawing, and music creation, which enhance my creativity and support my work in game and software development. I am a very quick learner with strong adaptability, I have teamwork experience, and motivation to grow in dynamic technical environments.

WORK EXPERIENCE

COURIER

Eternis - Wrocław - 2025-11 / Present

LABORER

QSense - Wrocław - 2024-11 / 2025-10

- Worked in a team environment lifting and handling heavy battery units safely and efficiently.

BARISTA

Cafe Mola - Turkey - 2024-06 / 2024-08

- Provided customer service and managed basic barista, waiter & cashier tasks.

LOGISTIC ASSISTANT

Aras Kargo - Turkey - 2023-06 / 2023-08

- Supported daily logistics operations by processing customer shipments, returns, package pickups, and system entries.

PROJECTS

- ✓ Unity Story Game - Solo-developed a narrative mini-game in Unity, including gameplay logic, animations, scene transitions, and original music.
- ✓ Productivity App - Built a focus-timer app as part of a team, with XP, leveling, coin rewards, cosmetic shop, calendar, and reminder features; collaboratively designed the full UI and system logic
- ✓ Portfolio Website - Created a personal portfolio site with a clean, modern layout to showcase projects.
